

Stark Electronics/Absolute Quality Manufacturing is excited to announce that we have obtained ISO 9001:2015 Certification for our Quality Management System. The scope of the certification covers electromechanical components and the manufacturing of custom wire harnesses and cable assemblies, panel and box builds, kitting and electromechanical assemblies to industrial and commercial customers.

ISO 9001:2015 sets out the criteria for a quality management system and is the only standard in the family that can be certified to (although this is not a requirement). This standard is based on a number of quality management principles including a strong customer focus, the motivation and implication of top management, the process approach and continual improvement.
